

## Porcelain Mark P9

Printed overglaze in **puce** this mark seems to have been reserved for the highest quality porcelains during the reign of William VI, i.e. from 1830 to 1837. It is not as rare as some other marks.

<u>Ware</u>	<u>Pattern #s</u>	<u>Frequency</u>
dinner wares	~250-300	rare
dessert wares	~375-400	rare
tea wares	~850-925	rare

Examples are rather scarce and help is needed to build up an accurate picture of the range of pattern numbers produced from 1830 to 1837.
