

## Porcelain Mark 13

This is a fairly common mark printed underglaze in **blue** on average quality wares from about 1837 to about 1860.

This mark printed underglaze is distinctly different from P10 and P11 which are larger and printed overglaze.

**DAVENPORT  
LONGPORT**

A few pieces have pattern numbers in the range 1000 to 2000, but most pieces with this mark have pattern numbers of 3000+.

A rare early example has been seen printed overglaze in **russet/gold**.
